## GOOD CITIZENSHIP.

ED. JOURNAL: - Its finances are, beyond, any question, the most important concern of any municipality.

A greater mistake than that of official mis-management is the indifference, and neglect of all classes of citizens to investigate, study and verify all matters involving taxation and the expenditures of money.

A large per cent, of the indebtedness in municipalities would be avoided if the people would make it a business to keep closer tab on its finances.

The following figures will be a matter of interest if not pride to every wellwisher of our village, as showing the progress made in the four years and two months ending March 1, 1898, in relieving the pressure of that which does most hinder, viz. the public debt: Corporation bonds paid and

Tones Every Organ and Nerve in

Everyone is familiar with the fact that if we can produce a copious perspiration all over the body without violent effort or danger of taking cold we feel intense relief right away. For example, the sweating-out of a hard cold is known to be the only way to get rid of it safely. And if this principle were better understood we would be almost spared from any sickness whatsoever. Many of us have rheumatism—hot vapor will cure it. Fleshy persons can be reduced in weight five pounds per week if they wish it. And those who suffer with disfiguring skin diseases or blighting internal derangements of the liver, kidneys or bowels can be easily cured if they will only use their reason. A firm in Toledo, O. has invented a wenderful cabinet, large and comfortable, that absolutely cures all obstinate diseases and tones every organ and nerve in the body. It has excited a great amount of interest and has brought forth many letters from doctors are disymen who have tried it for their own maladles and recommended it to patients with such marvelous beneficial results as to make the esbinet unquestionably a material savior of mankind.
